

March 20, 2018

In March, 2018, to celebrate National Patient Safety Week, MAPS co-hosted a webinar with Stratis Health, the Minnesota Health Literacy Partnership and Hennepin County Medical Center about how health literacy can make your informed consent practices patient-friendly. "Re-imagining Consent in the Age of Health Literacy" was presented by Christopher R. Trudeau, JD who is an associate professor at the University of Arkansas for Medical Sciences' Center for Health Literacy.
